

KRUSHNA EKNATH KUMBHARE

DATA ANALYST • POWER BI DEVELOPER • MIS EXECUTIVE

Pune, Maharashtra | +91-7719019907 | krushnakumbhare.dev@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Data Analyst and Power BI Developer with 3.7+ years of experience in MIS reporting, business intelligence, data visualization, and data-driven decision support. Skilled in Power BI (DAX, Power Query, data modeling, Microsoft Fabric), SQL Server, Advanced Excel automation (VBA/Macros), and report/process automation. Strong track record in building interactive dashboards, KPI scorecards, and self-service BI solutions; automating ETL/ELT workflows; performing data reconciliation and data governance; and delivering actionable, ATS-relevant, business-ready insights to cross-functional and senior stakeholders. Adaptable across MIS, analytics, and BI development roles with a keen eye on emerging tools such as Copilot for Power BI and AI-assisted analytics.

CORE COMPETENCIES & TECHNICAL SKILLS

BI & Visualization Power BI (DAX, Power Query, M Language, Data Modeling, Star/Snowflake Schema, Calculated Columns & Measures, Row-Level Security, Power BI Service, Power BI Gateway, Dataflows, Incremental Refresh, Paginated Reports, Copilot for Power BI), Excel Dashboards, Data Storytelling, Data Visualization

Database & SQL Microsoft SQL Server 2019, MS Azure SQL Database, T-SQL, ETL/ELT Pipelines (SSIS – Visual Studio), Stored Procedures, Joins, Subqueries, Data Cleansing & Validation, Data Reconciliation, Data Warehousing, Data Warehouse Deployment, Data Governance, Data Profiling & Anomaly Detection

Business & Data Analysis Business Analysis, Data Analysis, Requirements Gathering, Metrics Monitoring, Data Analysis Methodology Design, Critical Thinking, Problem Solving

MIS & Reporting MIS Reporting, Report Automation, Dashboard Automation, KPI Tracking & Scorecards, SLA & Compliance Reporting, Audit Support, Process Automation, Stakeholder Reporting

Programming & Automation Python (Pandas, NumPy, Matplotlib, Seaborn, scikit-learn), Excel VBA / Macros, Power Automate, JavaScript, Java, PHP

Machine Learning & AI Supervised Learning (Linear & Logistic Regression, Decision Tree, Random Forest, SVM, KNN), Unsupervised Learning (K-Means Clustering, PCA), Predictive Analytics, NLP Basics, Feature Engineering, Model Evaluation (Confusion Matrix, ROC-AUC, Cross-Validation), Data Preprocessing & Hyperparameter Tuning, Generative AI Tools Awareness

Cloud & Data Platforms Microsoft Azure, Microsoft Fabric, Azure Data Factory, Azure Synapse, Azure Data Services, OneDrive, SharePoint

Productivity Tools Microsoft Excel (Advanced Formulas, PivotTables, Power Pivot), Word, PowerPoint, Microsoft Teams

Operating Systems Windows 10/11, Linux

Soft Skills Analytical Thinking, Problem Solving, Attention to Detail, Cross-functional Communication, Stakeholder Management, Time Management, Data-Driven Decision Making

PROFESSIONAL EXPERIENCE

Data Analyst – Executive (Lettering & Reporting) • Credence Resource Management Apr 2024 – May 2026

- Designed and deployed interactive Power BI dashboards with DAX measures, Power Query (M Language) transformations, and star-schema data models, enabling real-time KPI tracking and self-service analytics for executive stakeholders.
- Automated cover letter generation, password protection, and email dispatch using Excel VBA macros, reducing manual reporting effort by approximately 60% and improving process efficiency.
- Maintained master datasets and produced weekly/monthly MIS reports and dashboards for senior management, sustaining 99%+ data accuracy and data integrity.
- Developed T-SQL queries to extract, validate, reconcile, and cleanse data from SQL Server databases, supporting audit, compliance, and SLA reporting.
- Collaborated with cross-functional teams to gather business requirements and translate them into Power BI analytical solutions and data visualizations.
- Implemented data validation, data governance, and cleansing workflows in SQL and Excel, achieving a 25% reduction in reporting errors.
- Reviewed and validated customer and operational data at the point of collection, performing data profiling to detect anomalies before deployment to the data warehouse for enterprise reporting.
- Partnered with the IT department on software/infrastructure upgrades and continuously monitored KPI metrics, refining data analysis methodologies to strengthen reporting reliability.

MIS Analyst – MIS Reporting • *SoftGrid Info Pvt. Ltd.* **Sep 2022 – Apr 2024**

- Managed and maintained large-scale datasets in Excel; extracted actionable insights to support MIS reporting, business planning, and data-driven decision-making.
- Built interactive Power BI dashboards with drill-through pages, slicers, custom DAX measures, and conditional formatting to surface business trends and KPIs.
- Authored complex SQL scripts for ETL data extraction and transformation from multiple relational database sources, supporting data warehousing initiatives.
- Automated recurring MIS reports using PivotTables, VLOOKUP, INDEX-MATCH, and advanced Excel formulas, improving reporting cycle efficiency and turnaround time.

KEY PROJECTS

Tourism Analytics Dashboard – Thailand | Power BI

- Built an interactive Power BI dashboard analyzing Thailand tourism data (2022–2023) covering visitor segmentation, trend monitoring, tourist behaviour analytics, and compliance insights.
- Applied DAX calculated measures and Power Query M transformations for efficient data modeling, report performance optimization, and data visualization.
- GitHub: [Link](#)

VTONE Fitness Gym – Member Analytics Dashboard | Power BI + SQL

- Designed a Power BI dashboard analyzing member demographics, activity levels, fitness goals, and membership type comparisons using a star-schema data model.
- Implemented SQL queries for data extraction and transformation; built DAX calculated columns and measures for age distribution, retention analysis, and predictive insights.
- GitHub: [Link](#)

KEY ACHIEVEMENTS & AWARDS

- Recognized & Rewarded (RnR) — Best Employee of the Quarter, Credence Resource Management, for exceptional performance in data reporting, automation, and delivering high-quality business insights.
- Reduced reporting errors by 25% through SQL-based data validation routines and Excel data cleansing automation.
- Cut manual MIS reporting time by ~60% by building end-to-end Excel VBA automation workflows.
- Delivered Power BI dashboards with real-time KPI tracking, directly improving executive decision-making speed.
- Applied supervised ML algorithms (Random Forest, Logistic Regression) using Python and scikit-learn for predictive analysis and classification tasks during Data Science training at Datamites.
- Performed end-to-end ML pipeline development including data preprocessing, feature engineering, model training, cross-validation, and hyperparameter tuning to optimize model accuracy.

EDUCATION

Bachelor of Computer Applications (BCA) 2022

MGM College of CS and IT, Nanded — 77.11%

CERTIFICATIONS

- Data Science & Machine Learning Course — Datamites, Pune
- Full Stack Web Development Training & Internship — DevTown, Remote
- Advanced Java Certification — MGM College of CS and IT, Nanded
- Microsoft Power BI — Self-Directed Learning & Project-Based Certification (DAX, Power Query, Data Modeling, Microsoft Fabric)
